The club is so common a feature in the life of the women of America that it is difficult to realize the full significance of the formation of a new organization in Chicage, called the Swedish-American Women's Club. It is the first in America, and even now the members are a bit timid about meeting in clubrooms or in a hall, fearing the objections of their husbands and friends to once a month the club meets at the house of a member, where a timely paper is read and discussed. Out of a total population of 40,0000 Swedish women in Chicago, the club numbers something like sixty members.

MRS. BOOTH'S GREAT FAITH RETURNED FROM EUROPE, SHE AGAIN

TAKES UP PRISON WORK. A RECEPTION TO BE GIVEN IN HOPE HALL AFTER WHICH SHE WILL START ON

A LONG LECTURE TOUR.

After a long trip to Charlestown and Sing Sing prisons, Mrs. Ballington Booth returned to her office desk, at No. 24 Union Square, yesterday and teld everybody around her that her faith in her work was greater than ever. Bright of eye and brown of check, with the enthusiasm and fire that often won public audiences to her way of thinking, it was difficult to believe that she was suf-

fering from a fatal disease.

"I believe I will live to be ninety," she said to a Tribune reporter. "I have to live, you know, for I really cannot afford to die. When my physicians broke the news to me at first it was awful to bear, for I thought of all those I would have to leave un helped and unaided. I cried all the way from New-York to Montclair, and I am sure I do not know what the people in the train thought of me. I am so happy in my work! Seventy-five per cent of my graduates' are as true as steel to the promises they made to God when they were in prison I had a pleasant time in England, visiting my

dear sister, who is an ideal pastor's wife in an ideal parish, and together we visited the house we were born in and the early scenes of our childhood. At the request of the steerage passengers on the steamer I held a meeting with them on the way ever, and felt proud because they asked me. Coming back the first-class passengers accorded me a simliar honor. On the same steamer were Hall Caine
and Lord Brassey, and they both became intensely
interested in my work. After one of my meetings
they insisted on taking up a collection, and my
prison fund was \$450 richer because of it. I do not
agree with Mr. Caine in his definition of a Christian, and cannot accept John Storm as a specimen
of a Christ follower, but I heartily agree with the
public verdict that Mr. Caine is a clever man.

The Tribune has been extremely kind to me in
the past," concluded Mrs. Booth, "but the press in
general has been too much in the habit of praising
me rather than my work. It is because I have a
great subject that I succeed in setting people to
listen to me, and it is my work, not my personal
gifts, that has won the generous support of the
American people. Please say for me that I am in
good health and full of faith for my dear boys."

Mrs. Booth is to lecture and speak throughout
the country during the fall and winer. She is to
hold a reception at Hope Hall, her prison home,
some day next week, and has industriously borrowed all the carriages in her neighborhood to conrey her friends from the cable-cars to the house.

While speaking of its magnificent possibilities as an organization she said it still had radical defects in its constitution, which, unless speedily remedied, would cause a disintegration that will undermine its very foundations. The per capita tax, which was finally adopted, was a most serious mitstake, for to tax men and women "by the head" is as gross an injustice as can be imagined, and is not calculated to promote more fraternal equality. Miss Gaines was emphatic in her criticism of the present method of representation in the General Federation, where every little reading club of twelve members, contributing \$129 per annum, may send a delegate who ranks with a State president representing 20,000 women and large public interests. opinions of the president on the future of the Gen-

That the General Federation should rest on a union of State federations alone was the real point of issue taken by the speaker. In such a consolidated federation each State should be taxed in proportion to the State revenues, and each State would be, not an auxiliary, but an integral part of the whole, where noble achievement, born of fine rivairy, would be born.

SOFT VOICES SING HER REQUIEM.

A great many women gathered yesterday at the Church of the Heavenly Rest, No. 551 Fifth-ave., to do honor to the memory of Mrs. Rachel Mc-Auley, the late chairman of the Executive Committee of the Professional Woman's League.
The pastor of the church, the Rev. D. Parker
Morgan, officiated, and the impressive service which was held was heightened by the fact that women had the entire charge of the musical part of the service, which was considered an unusual thing for an Episcopal church. A member of the league, Miss Fanny Spencer, of the American Guild of Organists, played the organ, and the singers were the fellow-members of the dead woman, who made their songs the last tribute of their affection for her.

"Aunt Louisa" Eldridge pinned the emblem of the league, as well as the colors, on Mrs. Mc-Aulcy's breast as she lay in her coffin, and as the pallbearers moved up the alse with all that was earthly of the once famous actress leagus chorus sang softly "Jesus, Lover of My Soul." The organ prelude was Guilmant's "Lamentation," and then the Countess de Bremont, with everal members aiding in the chorus part, sang "Beyond the Smiling and the Weeping." At the of the services the league chorus sang "Nearer, My God, to Thee," and Miss Spencer played Chopin's funeral march.

Among the floral gifts was a handsome broken

NATIONAL WAR RELIEF REPORTS HEARD AND WORKERS THANKED.

EIGHTEEN THOUSAND DOLLARS NOW IN THE TREASURY-TWO HUNDRED SICK SOLDIERS

The corridors and committee rooms at the Windsor Hotel yesterday were filled with earnest women, at tending the meeting of the National Committee of the Women's National War Relief Association. Mrs. Russell Sage presided.

Mary Lowe Dickinson was present, and made several stirring speeches, in which she advised the association to extend its work to Porto Rico and prepare to repeat there the good it has

Mrs. Walworth gave a report of the whole sea son's work, dating from the beginning. A member at this point rose and said she had heard from many men at Santiago, and each had highly eulogized their leader. A vote of appreciation thanks was then and there unanimously extended to Mrs. Walworth. Dr. Gallant made a full report of his work at Camp Walworth. The associa-tion thanked him, and also extended words of ap-preciation to Mr. and Mrs. Frost, members of the Salvation Army, who have had charge of the house in East Fifteenth-st. The Salvation Army has notified the association that it will need its house November 23, and Miss Gould has been appointed to secure another place to which Camp Walworth may be transferred.

It was learned through Mrs. Eugene McLain's report that she had written 750 letters in behalf of

Mrs. Abby Sage Richardson said that she had learned that Miss Rhodes was planning a trip to Porto Rico, and suggested that as Miss Rhodes was

Porto Rico, and suggested that as any interest thoroughly capable the association should appoint her as its representative. This suggestion was promptly acted upon, and Miss Rhodes will be furnished with official documents and personal A letter was received from the wife of Colonel Haskins, who is now at Fort Adams, expecting every day to be sent to Porto Rico. Mrs. Haskins said that her husband requested that a jackknife be put in a comfort bag and sent to him. Mrs. Sage then dived down into her pocket and brought out a beautiful knife, saying that that particular knife

should be sent to Colonel Haskins. After some talk it was decided that the working girls' clubs in charge of Miss Grace Dodge should have the honor of making and equipping the comfort bag for this soldier. A fund of \$10 was offered by "a friend" to be devoted to furnishing jackknives for the comfort hags to go to Cuba.

An order was read from Major Appel, issued in accordance with instructions from headquarters, to accordance with instructions from headquarters, to
the effect that all soldiers now in hospitals and
convalescent homes in the city must be sent to the
Army Building as soon as they are physically able.
Miss Rhodes said that to some of the members
this order appeared as though Major Appel did not
intend to send them more men to be cared for: "but
this is not the case, for he said that the good work
the association had accomplished could never be appreclated, and he hoped that the women would not
discontinue their good deeds, for they were still
much needed."
However, the regular daily meetings of the asso-

officiontime their good deeds, for they were still much needed."

However, the regular daily meetings of the association will not hereafter be held, although the work will go on as usual. There is now in the treasury over \$18,000, and after October 15 no more contributions will be received from the public. The association feels that the Government is now able to take care of the details herefore attended to by the association, and may prefer to do it. The regular weekly supplies of milk, eggs, chicken broilers and fruit which have been sent to the hospitals have been discontinued, because these hospitals have been discontinued, because these hospitals have been discontinued, because these hospitals are no longer in need of them. There are now two hundred men at Camp Walworth, most of them sent there by Major Appel.

When the Obdam landed the day before yesterday with the Pennsylvania troops Major Appel invited Mr. Moulton, the association's representative, to go on board with him. Governor Hastings, with his wife, also went aboard. Most of the men were sick, and went to the various hospitals in the city, but the thirty-five who were convalescent were taken to Camp Walworth, Governor Hastings said that he fully appreciated the great relief furnished by the association.

The capitain invited the party to partake of re-

Mynheer De Peyster, finally turned in despair from his hopeless occupation of watching for the ship he was startled by a noise in his war-house. Opening the door and going in, he found that he could scarcely move, as the place was filled with kegs upon kegs of the best Jamaica rom and cases of Cura-ooa. By the fickering light of his candle he saw a "princely man, with a face benign with blessing and peace." The stranger spoke to the frightened merchant, saying that he was to share the store with friend and stranger alike. At every door on New Year's morning stood a keg or two of the merchant's store, their contents being "like nothing they had ever had before," and with thankfulness in their hearts all made merry.

CIVILIZING THE INDIANS.

EDUCATIONAL WORK ADVANCING AMONG THE TRIBES.

Washington, Oct. 12.- The annual report of Williiam A. Jones, Commissioner of Indian Affairs, shows a general steady advancement in the condition of the "Nation's wards." Education, the greatest factor in solving the status of the Indians, is being pushed forward in the service, and now there are 147 well-equipped boarding schools and an equal number of day schools engaged in the edu-cation of 23.952 pupils. The average attendance and enrolment have steadily increased for the last twenty-one years.

. Inquiries made by Commissioner Jones the last year show significantly that 39 per cent of those pupils who have gone through the schools and reurned to their homes are reported to be in good physical condition, contrary to the frequet suggesthe change might break a naturally strong and vigorous constitution. Of the pupils attending school, 3 per cent are reported as excellent or first-class, 73 per cent as good or medium, while only 24 per cent are considered had or worthless, showing, in the Commissioner's judgment, the value of a system which can in a generation develop from savages 76 per cent of good average men and

crease in enrolment and attendance of last ve has been changed into a net increase of 1.040, and 995, enrolment and average attendance, respectively, for the present year. The reservation schools show the largest gain. Agents are now being urged to greater exertions to fill the schools to the limit school age on the reservations whose physical

of their capacity by placing therein every child of school age on the reservations whose physical condition will warrant school confinement.

Future developments, Mr. Jones predicts, will undoubtedly emphasize that a regulation enforcing compulsory attendance upon the schools must be enacted. The placing of Indian children in the public schools of the country for the purpose of coeducation of the races does not appear to meet with much success, but a fuller test of its value and practicability is to be made this year.

The school property in the service is valued at over \$2,000.00, and larger funds for keeping it in repair are urged. Out of the general school support fund the Indian Office contemplates the expenditure of a sufficient sum radically to increase scholastic facilities for the great tribes of the Southwest, and to that end adequate additions will be made to the schools now established for the Pimas, Papagos, Navajos, Moquis and Apaches, at Sacaton, Fort Deflance, Keans Canyon, San Carlos and Fort Apache. There are on these reservations school advantages.

Special efforts for school advancement are to be made with the Jicarilla Apaches, the Southern Utea and the Seminoles in Florida.

Referring to the torturing and burning of Seminoles in Oklahoma last January, the report says it is thought indemnity will soon be paid by the Government to all members of the Seminole Nation injured by the mob of lawless whites in that occurrence, and the whites guilty of the outrages are now being prosecuted. The report gives in detail the work that has been going on at the various reservations during the year.

BISMARCK'S RICH ANCESTORS.

HOW HIS FAMILY AND THE HOHENZOLLERNS ROSE TO POWER.

his master, Bismarck, busies himself with relating only what has happened to the Iron Chanceller during and since the Franco-Prussian war of 1870-1871, other German historians or chroniclers have hunted up the history of Bismarck's family as far back in centuries as they could find documents to guide them in their researches. It is thus that a book written about the famous German trio. Bismarck. Wilhelm and Von Moltke, reveals a singular similarity in the origin of the greatness of the the representative of the one was to be made Emperor of Germany by the efforts of the representative of the other.

There is in Germany a dismal province which was called formerly the Sandlot of the Empire. That is Brandenburg, a country covered with ryrily gray and a long and hard winter. That country is the cradle of the Bismarcks and of the Prussian monarchs. The Bismarcks preceded the The Bismarcks were at the beginning nothing but

simple merchant tailors. One of them. Claus, became rich and loaned, in 1340, a certain sum to the Margrave Louis the Bavarian, then at war with the Duke of Brunswick. As a guarantee this tom house of a neighboring port, which was the outlet for the town of Stendal, where he lived. It was the custom of those times for the princes and noblemen rarely to pay their debts, and Claus Bismarck had not the good luck to be paid back by the Margrave, who had vanquished the Duke of Brunswick. However, the protection of the Margrave seemed to insure the prosperity of the Bismarckian tailor, when the Democratic party was successful at the municipal elections of and Claus Bismarck, who was at the head of the Conservative party, was banished from his native town. The Margrave gave to him in the way of compensation, and probably also as an acknowledgment of new Lans of money, the castle of Burgment of new Lans of money, the eastle of Burgstall with its dependencies. To possess a noble property made the owner a nobleman, and it is thus that the Bismarcks rose from the status of simple merchant tailors to the rank of landed lords. About sixty years after the rank of landed lords. About sixty years after the rise of the Bismarckian tailor to nobility, a certain Friedrich von Hohenzollern. a Burgrave or imperial official at Nürnberg, loaned one hundred thousand gold ducats to Emperor Sigismund, who was unable to refund that sum at the appointed time. On the death of the Margrave of Brandenburg, which rendered vacant the Electorate of that name, Sigismund ceded it provisionally to Friedrich Hohenzollern, with the simple title of administrator. The cities and towns readily accepted the new official, but it was not so with the nobility, which declared that it would not recognize at any price the "junk dealer of Nürnberg." Still, Friedrich succeeded by force and wiles in making all the inhabitants recognize the rights granted to him by the Emperor. In 1415 a new loan of 250,000 ducats, made to Emperor Sigismund by the Hohenzollern ancestor, gave to him the power which he wanted. He was made Margrave and Elector, and consequently the absolute sovereign of the Brandenburg March. Later as the Princes of Anholt continued to assert certain alleged rights resarding the Electorate, Friedrich bought their renunciation by giving them 60,000 gold ducats.

It is thus that the Bismarcks, having become lords through money-lending, were the vassais in Brandenburg of the Hohenzollerns, who had become sovereign princes through similar means. stall with its dependencies. To possess a noble
